

# This is Our Time

## Chantal Chamberland

Here I sit  
Lone in the room  
Looking out at a brand new day  
A chance to start again  
To have my way to carry on  
Get ready to move  
I feel the rain on my skin  
I feel your love pouring in  
No one can keep us apart  
This is our time  
And you have my heart

Here I stand  
Lone in the crowd  
I feel alive  
All the tears have dried  
I don't need to scream  
For you to hear for you to hold my hand in the dark  
I feel the rain on my skin  
I feel your love pouring in  
No one can keep us apart  
This is our time  
And you have my heart

Here I lie  
With you in my arms  
Having become what I almost dreamt I be  
Finding the one  
Who lifts me up and takes me places I've never been  
I feel the rain on my skin  
I feel your love pouring in  
No one can keep us apart  
This is our time  
And you have my heart

I feel the rain on my skin  
I feel your love pouring in  
No one can keep us apart  
This is our time

And you have my heart
