Cool The Engines

Boston

Now I like takin' off
Don't like burnin' out
Every time you turn it on
Makes me want to shoutWe keep getting hotter
Movin' way too fast
If we don't slow this fire down
We're not gonna lastCool the engines
Red line's gettin' near
Cool the engines
Better take it out of gearI'm no fool, I'm gonna keep it cool
And take it day by day
We won't know where we might go
'Til we take it all the wayTake me for a ride
Take me all the way
Take me where I've never been
Someplace I can stayDon't get yourself too hot
Don't get yourself too high
If we don't take it easy now
We can kiss it all goodbyeCool the engines
Slow this rocket down
Cool the engines
Why don't ya take a look aroundI'm no fool, gonna keep it cool
Take it day by day
We won't know where we might go
'Til we take it all the wayCool the engines
Cool the engines
Cool the enginesCool the engines
Cool the engines
Cool the engines
Better cool it downCool the enginesAnd now we're on our way
No need to hurry just to get from day to day
And I, ooh, I know
We don't have to run that hard to get where we can goCool the engines
Cool the engines down
Cool the engines
Cool the engines down
