Take Me Away

Laga Savea

La la la la la la,
La la la la la la,
La la la la la la,
La la la la la la,
La la la la la la la yahooooooo!

Excuse me but can you explain to me, When my heart beats faster when, I see you around. And are you some kind of an angel of love, that does this thing to other guys, Or am I the only one. And if so Iâ€™d be more than happy to tell you my name, In return I would hope for the same so, I know who you are. The way you smile I can tell your personality is something I wouldnâ€™t have to worry about.

Take me away when I see you again, I would like to be the one that loves till the very end. Take me with you and your faces a frown, I would like to be the guy that cheers you up when you feel down. Take me right now, donâ€™t worry Iâ€™ll keep it cool, I just want be the one that fights and argues just for you. Iâ€™ll hold you tight so never be apart, this thing that I am singing right now I mean it from my heart.

La la la la la la,
La la la la la la,

The day Iâ€™m holding you tight in my arms is the day me and you will be watching earth from our house on the moon. And Iâ€™m gonna be holding you so close to me, thereâ€™s no force on earth that has the power to separate me from you. If only you could see the shape of my heart that hides. Itâ€™s the shape of a picture framed with your face trapped inside. The reason why I tell you this is because it is you that gives me life and the reason to liveâ€¦.Ohhhhh.

Take me away when I see you again, I would like to be the one that loves till the very end. Take me with you and your faces a frown, I would like to be the guy that cheers you up when you feel down. Take me right now, donâ€™t worry Iâ€™ll keep it cool, I just want be the one that fights and argues just for you. Iâ€™ll hold you tight so never be apart, this thing that I am singing right now I mean it from my heart.

La la la la la la,
La la la la la la,
La la la la la la,
La la la la la la,
La la la la la la
(Fading)
