

33 Degree

Thievery Corporation

I'm the president of the shadow government
The grand governor of the federal reserve
Public enemy of the society
The one you cannot see
The 33 degree Before you call the shot you notice I'm gone (?)
Blow up the system and the tables half a turn (?)
Your inner knowledge, you thought I'd never learn
I strike a match and make the whole place burn I'm the real doc, your MD
I'm your number one public enemy
I'm the one, the runaway slave
I'm the one, the one who got away Automatic rapid fire
Automatic make me _____ danger
Automatic rapid fire
Automatic make me _____ danger Lethal, man, me lethal
I'm on the run
Danger, man, me danger

_____ Cameras they track me they try to entrap me
Shadows I creep cause I know exactly
The knowledge you keep
I'm the word on the street I've got nothing to lose, the whole world to gain
Slip out of your noose, now I'm running your game I'll be the hive, the hustler, the swarm
category five, I'm the center of the storm We not goin stress
Put me to the test I strike a match and make the whole place burn All the dangers can be dealt with the wind (?)
Bulletproof vest and my Smith & Wesson
Anybody test me I'm going to teach them
That we're not gonna stress
Put me to the test
We're not gonna stress
Put me to the test I said all the dangers can be dealt with the wind (?)
Bulletproof vest and my Smith & Wesson
Anybody test me I'm going to teach them
We're not gonna stress
Put me to the test
We're not gonna stress
Put me to the test
