

# Believe the Squalor

## Lieutenant

Black and blue all around these eyes, I know  
Put them next to what they compare to, it shows  
When all's seen and laid bare  
We'll now be out of reach  
I'm all of the squalor  
Heed what they teach  
Appears though it's all on me  
Witnessed was all that need be seen  
She had all morning to perfect her  
Waiting all night  
Arranging to defect her carries on  
Tunnel shouts ring out around these ears, hello  
Can't say that I hear them  
But I hear they're there below  
When it's heard what comes back  
We'll now be out of reach  
Sunk to part of the squalor  
Of which the silence speaks  
Appears though it's all on me  
Witness was all that need be seen  
She had all morning to perfect her  
Waiting all night  
A plan to resurrect her carries on  
These calls they're placed to protect her  
Prepare now for the flight  
A reading redirects her, carry on  
There's roads that lead back to our home  
Stand no secrets upright  
We've seen the way clear  
It's to carry on  
In light, and love, and knowing  
In light, and love, and knowing all
