

Catch Me If You Can

Beu Sisters

What you get is
What you see
And you can bet it's worth it, baby
'Cause what you get is me So keep it real and just say what you feel
Don't be scared to fall in love Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky
Doesn't need a reason why feel it taking you and I
Higher and higher So, catch me if you can
Oh, catch me if you can Now you know, just what it takes
To make a little bit of Heaven, baby
So hold on tight, but learn to let go
We'll be free to be every color of the rainbow Don't be afraid to, let it embrace you
I'm gonna show you every little thing about love, yeah Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky
Doesn't need a reason why feel it taking you and I
Higher and higher So, catch me if you can I know you don't wanna show how you feel
So you try and deny that your feelings are real
'Cause you're scared to believe
All you need is L-O-V-E, love, all you need is love You can run, you can hide, but you know down inside
It will catch up to you, when you see you will find out
You better believe
All you need is L-O-V-E love, love Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky
Doesn't need a reason why feel it taking you and I
Higher and higher Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky
Doesn't need a reason why feel it taking you and I
Higher and higher Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky

Doesn't need a reason why feel it taking you and I
Higher and higher, so Do you really want it, if you want it you can get it
If you get it don't regret it, I can bet you're gonna let it take you
Higher and higher
Love is like a butterfly, tapestry across the sky
Doesn't need a reason why feel it taking you and I
Higher and higher, so
