The Night Riders

If I said the wrong thing would you leave?
Though my fingers may break, I just can't let you go
Don't know why I believed you,
Not with that promise you made me just yesterday
(Chorus)
I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
Til my heart stops beating,
I'll never lose this feeling
A lot of people gonna be dissapointed when they find out?
3:11 again
Though I'm not your best friend,
Don't you see I will do anything to keep you with me
Close your eyes, hold on tight, spin around, it's alright
Don't you see my plans will always have you in them?
(Chorus)
I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
Til my heart stops beating,
I'll never lose this feeling
A lot of people gonna be dissapointed when they find out
When they find out?yea

I said that a lot people gonna be dissapointed when they find out?
I will always love you, take the me out of you
A lot of people gonna be dissapointed
(Chorus)
I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
I will always love you, take the me out of you
A lot of people gonna be dissapointed when they find out,
I love you and I need you
Til my heart stops beating,
I'll never lose this feeling
A lot of people gonna be dissapointed when they find out
When they find out?yea

Yea
Yea
Yea

A lot of people gonna be dissapointed when they find out,
I love you and I need you (yea)
Til my heart stops beating,
I'll never lose this feeling (yea)
A lot of people gonna be dissapointed when they find out
