

# Close Your Eyes (feat. Meshell Ndegeocello)

Miguel Migs

Feels alright,  
Here all night  
Feels alright  
Here all nightPlenty of things I wish that I, could undo  
Everything good ain't too good to be true, oh  
You think there's nothing new, under the sun (Yeah just need to have some fun)  
And there's a piece of you coming undoneClose your eyes, step into another time  
Really love the way the music makes me feel, inside  
Close your eyes, step into another time  
Really love the way the music makes me feel, insideFeels alright just imagine  
Here all night just dancing  
There we are  
Let's leave the world behind  
So come with me, just dance with meClose your eyes, step into another time  
Really wanna know what the music makes you feel, inside  
Close your eyes, step into another time  
Really love the way the music makes me feel, insideYou think there's nothing new under the sun  
And there's a piece of you coming undone  
Everything good like too good to be true, ohClose your eyes, step into another time  
Really love the way the music makes me feel, inside  
Close your eyes, step into another time  
Really love the way the music makes me feel, inside (Just have some fun)
