

Crumbler

Jungle

Who do you think you're kidding now?

Screaming, lying, about it now.

I know you're kicking on

Yeah it's calling everyone

There's something tonight,

going on down there

so crawl up, it, baby.

All I ever wanted tonight

Is going on down there

so crawl it, baby.

You can't wash it off

meaning, drumming

it's hard enough.

You're too quick, enough

'cause it's all i ever knew

again

There's something tonight,

going on down there

so crawl up, it, baby.

All I ever wanted tonight

Is going on down there

so crawl it, baby.

Here we go again;

Hey, i want you tonight

Hey, i want you tonight

Is going on down there

and every day

going on down there
