

Wish Resign

Circa Survive

alter and teach the ages
nothing you love lasts too long
a marvelous calm
abandoned in the stages of
birth mother vs. the mid wife
who'll tell the children about her lifethat's why you never mentioned my name to them
denying us all of the momentthat's why you never mentioned my name to them
denying us all of the momentwhat brought you back to this place
I knew you'd never learn
I knew you'd neveranything expected of you now
I knew you'd never learn
I knew you'd neverI'd place my bet down now
you'll be the first one to sell me outthat's why you never mentioned my name to them
denying us all of the momentthat's why you never mentioned my name to them
denying us all of the momentwhat brought you back to this place
I knew you'd never learn
I knew you'd neverwhat brought you back to this place
I knew you'd never learn
it's obviouswhat brought you back to this place
what brought you back to this place
