

Lucifer's Eyes

T.O.L.D.

I sleep with no voice
I wake with no name

I started a noise
The devil did make

The seventeenth times
The seventeenth names

I could stay dry
But I can hear rain
I can hear rain

Say your goodbyes
Fly away

Lucifer's eyes
And hide your pain

The seventeenth times
The seventeenth names

I could stay dry
But I can hear rain
I can hear rain

I can't see the way eyes
The devil's taking me now

I can't see the way eyes
The devil's taking me now

I can't see the way eyes
The devil's taking me now

The devil's taking me now
