

Lost Together

Frazey Ford

oh, were we lost together
you know we were
sad that silence in everything
from the beginning you're here
i would like to get some rest
so the kids no longer have
to see us fighting the world is a funny thing
well i thought that this was for
making love and making my
beautiful babies
i never thought that i'd look back
and see what i didn't have to give
and just what they did not get
those beautiful babies oh were we lost together
you know we were
side by side losing everything
we were just a pair of kids
oh, the stupid things we did
in the madness they were calling
the revolution and what a funny thing it is
what i thought that this was for
making love and making more
beautiful babies
i never thought that i'd look back
and find
how we left them at the door
with their eyes so full of war
wars are our family
