I'd Do Anything

Firehouse

Didn't know I could go the distance
I could've given up without a fight
But when I first saw you, from that moment
You changed my life
Didn't even know I had it in me
To care for somebody that much
And it scares me to think
How this could be dangerous
Now it's too late to turn back, I've fallen for you
There's nothing I wouldn't do
I believe I could walk on your water
I would drown in your river of love
And I know I could walk through the fire
I would burn in the flames of your heart
If I get too close to you I might hurt myself
Like a moth that flies too close to the flame
I can't help it 'cause for your love I'd do anything
I would walk for a million miles
Just to get one step closer to you
I'd give everything that I own
Just to spend time alone with you
Now it's too late to turn back I've fallen for you
There's nothing I wouldn't do
I believe I could walk on your water
I would drown in your river of love
And I know I could walk through the fire
I would burn in the flames of your heart
If I get too close to you I might hurt myself
Like a moth that flies too close to the flame
I can't help it 'cause for your love I'd do anything
For your love I'd do anything
I've waited a lifetime for someone like you
There's nothing I wouldn't do
I believe I could walk on your water
I would drown in your river of love
And I know I could walk through the fire
I would burn in the flames of your heart
If I get too close to you I might hurt myself
Like a moth that flies too close to the flame

I can't help it 'cause for your love I'd do anything
