

# **Stones to the Burden**

**Helheim**

I lay the final weight to your shoulders  
I make your life tip over  
Life is a slow sadistic torment  
I only increase the speedAm I really that cruel  
Am I really the reason  
Just slit your throat  
Increase the speedPainfully aware of the lot  
The sinister slumber in me  
I unveil the darkest of all  
Into the abyss you fallPitch the faith  
To dead silence  
Turn the key  
To open the gate  
Increase the speed
