

The Man I Wanted

[Cate le Bon](#)

Grow your hair longer
It's easy to in summer
When the days fold underIf it pours in the daytime
We'll have to stay indoors
I'll milk the time you sat with meWhat I hoped for most
Was to be his greatest host
He'd make my hands his home
The man I wantedWhere is the pain?, I weeped
How does the opposite feel?
Well you will never show meAutumn was so nice
We're rolling into winter
The pleasure is all mine
Still feels more than twice
The man I wanted
The man I wanted
The man I wanted
The man I wanted
The man I wanted
