Baby Get Worse

[Divine Fits](#)

I got a picture in black and white
I put the picture across my eyes
Im gonna hold it up
up to the light
and Ill get mine
Baby get worseSo shut the door the neon sky
The operator of something wild
You got your good thing
And Ill get mind
Before baby get worseCant you hear me calling
Calling outside
I block the comm
I was underwater
underwaterMy heart was beating in in and outta time
She can really get me goneSo grab your coat
Put out your light
We hit the city but the city it dont mind
Made it alright
Baby get worseIll be the operator
Ill be the spy
Im taking pictures until they turn out right
Then say goodnightMy heart was beating in in and outta time
She can really get me gone
I never know
I never knowMy heart was beating in in and outta time
She can really get me gone
My heart was beating in in and outta time
She can really get me gone
My heart was beating in in and outta time
She can really get me gone
My heart was beating in in and outta time
She can really get me goneI never know
I never know
