# Read the Lines

## Wolfsheim

I read the lines you left for me
I can't believe, you've gone so far
I can't believeI broke the rules, I know it well
I don't understand myself
It's hard to tellI read the lines you left for me
I can't believe, you've gone so far
I can't believeI saw the signs, I knew from the start
I have no answers to the questions you could askI read the lines you left for me
I can't believe, you've gone so far
I can't believeI read the lines you left for me
I can't believe, you've gone so far
I can't believeI broke the rules, I know it well
Well, I don't understand myself
It's hard to tellI read the lines you left for me
I can't believe, you've gone so far
I can't believeI saw the signs, I knew from the start
I have no answers to the questions you could ask
