

Pete

Reaction 7

Chorus

Its time to put Pete in the hall
The applause from the fans said it all
And maybe what he did was so wrong
Well its true that we're not all so strong
But its time to put Pete in the hall Well we all watched that man in red
With our ears hearing everything that he said
We all watched him hit that famous home run
Hell, that man he was all of our fun Now he waits as he sits all alone
And he asks you if he can atone
Well we says that enough is enough
Since the punishment is more than tough Once you said he was the game's MVP
Look what it's doing to you and to me
Don't you think it's time to do it right
He's a champ don't you know it tonight
