# Virtual Environment

## Lacuna Coil

I saw you fade
Or was it a dream
But sooner had I tried to touch you
The love would disappear
Hard to go on
You'll never let me down again
Hard to go on
And never be the one to blame
The cause
Floating into your world
To see what is inside
Passing what you've lived through
The peace is out of sight
Can't stay away
Can't stay away from you x2
Hard to go on
You'll never let me down again

Hard to go on
And never be the one to blame
The cause
Floating into your world
To see what is inside
Passing what you've lived through
The peace is out of sight
Can't stay away
Can't stay away from you x2
(Background vocals)
And now I miss you
Whenever you appear to me
And now I feel you
Whenever I can't stay away from you
The cause
