

# Largactyl

## Amebix

You're standing on a hill, looking down at the city  
Thinking 'bout your life and your bottle of pills  
They released you from the hospital, you're cured!

So this is how freedom feels?Largactyl Relax (it's only paranoia)Feel a little numb? Feel a little tired?

Your brain's asleep and your body's retired

You've learned to fit in. OBEY!

You're just a shadow of what you used to beLargactyl Relax (it's only paranoia)
