If We Only

Red

Let it die!
Sick of all the promises youve broken
(you break them all)
I get all the blame and youre the victim (its all a lie)
How long will you hold on
Why cant I let go
Find a way to escape all the hateIf we only could get over
All the pain inside
All the wasted pride
If we only, if we only
Could face the truth
Give up the fight
And let it dieTell me why you drown me with you silence
(you make me sick)
Tell me why Im always craving violence
How long will I hold on
Why cant you let go
Find a way to escape
All the hateLet it die
Im done with this
Im done with this
Im done with this
