

# Out With The Boys

## The Meateaters

I've been looking, Johnny, I've been looking for you  
I know that you're out there doing what you shouldn't do  
I've been calling, Johnny, I've been calling for you  
The streets didn't answer me 'cause they know that you're through  
I still recall the night when you almost took your life  
And we all were staying up all night to be right by your side  
And we were out with the boys  
And we were out to make some noise  
Yeah, we were out with the boys  
We were out to make some noise  
I was searching, Johnny, I was searching through town  
I heard that someone saw you lying around  
I was running, Johnny, I was running out of time  
When I suddenly found you beat up and fallen apart  
I thought about the days when we were young and wild  
And every girl out on the street turned when we walked by  
When we were out with the boys  
Yeah, we were out to make some noise  
  
Yeah, we were out with the boys  
Yeah, we were out to make some noise  
If I could make a wish I'd take you back in time  
And we could be the way we were  
When we were out with the boys  
When we were out to make some noise  
Yeah, we were out with the boys  
Yeah, we were out to make some noise  
(Yeah, we were out with the boys)  
Out with the boys  
(Johnny, Johnny, the streets are calling your name)  
Out to make some noise  
(Johnny, I miss you much my friend)  
Out with the boys  
(Out with the boys)  
Out to make some noise  
(So long my friend)
