You Mean Everything to Me

Shawn Mullins

I've been on the road too long
And I've been stuck inside a song
And you know our love
Has been through rougher weatherBut our passion's like a rose
The seasons tell it how it grows
And not much compares
To the times we've shared together'Cause love heals everything
We're no exception to the rule
You mean everything to meSo if there is anything at all
All you've got to do is call
And you know that I
Would drive 10,000 milesJust to show you that I care
Just to kiss your honey hair
And pull you close
And hold you like a childLove heals everything
We're no exception to that rule
You mean everything, you mean everything
And you mean everything to me
