

# You Mean Everything to Me

Shawn Mullins

I've been on the road too long  
And I've been stuck inside a song  
And you know our love  
Has been through rougher weather But our passion's like a rose  
The seasons tell it how it grows  
And not much compares  
To the times we've shared together 'Cause love heals everything  
We're no exception to the rule  
You mean everything to me So if there is anything at all  
All you've got to do is call  
And you know that I  
Would drive 10,000 miles Just to show you that I care  
Just to kiss your honey hair  
And pull you close  
And hold you like a child Love heals everything  
We're no exception to that rule  
You mean everything, you mean everything  
And you mean everything to me
