

# Jerusalem - Sufferpolis

Arkan

Here you are finally  
You're the one i was waiting for  
Hear my words carefully  
We often face our fate  
Through the ways  
We've taken to avoid itFrom the bottom of my soul  
I will be your guiding sign  
Through the sorrow and the pain  
The brotherhood we've found  
Can never ever fade  
And will always be the sameI lead you to the other side  
The new sun is rising  
On orshalim  
Let me see inside your soul  
Let me show you the way  
Beside my silent friend(arabic singing)Invaded by your pain(arabic singing)
