Across State Lines

Face to Face

(Verse)
Thats fear in everyone
You cant manipulate you
Just pull the string and watch the show(Verse)
Fried lights as we go by
They fade into the darkness
Wailing darkness in the road(Chorus)
You wanna be topped it
And something else inside of us
And you wont keep going home again
We gotta ride em now
Maybe across state lines
And I dont want friends today
We gotta ride em now(Verse)
One chance for everyone
Maybe we still believe it
Just played your heart, it couldnt go wrong(Verse)
Pretty nice girl hangs above
And I know that theyre all secrets
Theres a greater thing we cant deny(Chorus x2)
You wanna be topped it
And something else inside of us
And you wont keep going home again
We gotta ride em now
Maybe across state lines
And I dont want friends today
We gotta ride em nowWe gotta ride em now
Maybe across state lines
And I dont want friends today
We gotta ride em nowAcross state lines
Maybe across state lines
Maybe across state lines
