Amnesia

Keith Richards

Advisory - the following lyrics contain explicit language:

Nowhere
Nowhere
Don't know who I am, forgotten my name
I got no address and who the hell's to blame
Knocked on my head, everything went blank
I didn't even know, the Titanic sank
Nowhere
Nowhere
Check my passports but it seems I've been around
But I can't remember time like baggage lost and found
Thought I met mother, she said you don't belong to me
Behind you must be trouble, broken hearts and misery
Nowhere, I'm talkin' nowhere
(Remember)
I try and jock my memory, it's a futile exercise
When you amount to nowhere, ha, you don't get a prize
How can I regret, huh, it's so easy to forget
You know everything I do, I know nothing about you
No-fucking-where (remember)
I can't recall the past
Nowhere, nowhere
Nowhere
