I Can Hardly Spell My Name

Lambchop

Teardrops form a shadow
This tongue starts to waggle
That's a lovely dress
And oh that's just teachingAnd it's not true you know
You swear and all by yourself
As time delivers for a while now
This may not appeal to you
But I can hardly spell my nameA Siamese beside his lonely awesome
And I've been waiting all my life
In spite of this arrangement
Moderation on vacation
It's time we all settled downAnd it's not true you know
You swear and all by yourself
As time delivers for a while now
This may not appeal to you
But I can hardly spell my name
