Heaven Knows the Way

Admiral Twin

Standing outside
Looking inside
Through the wall
I stumbled sagely
I predicted my own fall
She pretends
That she can't hear me
When I call
I'm feeling low and...An hour later
Or maybe it's been three
I break a door down
With a neighbors Christmas tree
I find her in a corner
Choking on her hopes
And misery
She's fading fast'cos she can't find
Her own way
Heaven knows the way
Heaven knows the wayMy alibi says
It was just a social call
I stumbled sagely
I predicted my own fall
The politics of failure
Never seemed to
Bother her at all
She never made a sound'cos she can't find
Her own way
Heaven knows the way
Heaven knows the wayStanding outside
Looking inside
Through the wall
I stumbled sagely
I predicted my own fall
She pretends
That she can't hear me
When I call
I'm feeling low and...She can't find her own way
Heaven knows the way
Heaven knows the way
