

# Golden Heart

## Black Marble

1]

You should hear your voice again

How can I forget?

Hide another secret in your head

Better believe I hear the sound

The news that's on the ground

I'm not the only one Find out on your own time

Every day and night

Everybody's asking me why

If I told you what I know I wouldn't lie

Holding onto your own voice

How can you forget?

Hide another secret in your head

"It's a game," I always thought

There's hardly any thought

More common than to wish we're not Find out on your own time

Every day and night

Everybody's acting a bore

Saying you don't come around anymore

Find out on your own time

Every day and night

Everybody's asking me why

If I told you what I know I wouldn't lie
