Minus Celsius

Backyard Babies

Oh, I searched the world around for you
In every corner I see two
Ovations ought to be for me
What makes anybody wanna be?I'm sure you're lookin'
Sure got your hooks in
It's freezing, I'm so cold
You damn rightMinus me, minus you
I think it's all because of
I think it's all because of youMinus me, minus you
I think it's all because of
I think it's all because of youOh, I care about, now what's his name?
Moral speakin' nor did I choose fame
What in the world took you so long?
The time is dripping, all fluids getting strongI'm sure you're lookin'
Sure got your hooks in
It's freezing, I'm so cold
You damn rightMinus me, minus you
I think it's all because of
I think it's all because of youMinus me, minus you
I think it's all because of
I think it's all because of you, heyMinus me, minus you
I think it's all because of
I think it's all because of youMinus me, minus you
I think it's all because of
I think it's all because of youI know it's all because
