

Baby Come Round

Spice Girls

Hey, come round
And remember how it started up
'Cause no one wants to be a one hit wonder
Why can't we work it out? Who called who? I before you?
Who made the move? We know it takes two
Bumping into you, was it all down to me?
Time for you to come around So, baby, come round, come round
Come round to my way of loving
So, baby, come round, come round
Come round to my way of loving Butterflies have passed us by
Gotta get the feeling back
Taking each other for granted
I know that we can work it out I wind you up like a brand new toy
I've had enough, I'm over wound
Got to give it up, I know your game
Time for you to come around So, baby, come round, come round
Come round to my way of loving
So, baby, come round, come round
Come round to my way of loving So, baby, come round, come round
So, baby, come round, come round
So, baby, come round, come round
So, baby, come round, come round So, baby, come round, come round
So, baby, come round, come round
Come round, come round
To my way of loving So, baby, come round, round
I'll show you what you're missing
Now or never, won't hang around forever I'll be flying by the seat of my pants
Girl, see I've got better thing to do
Than waste my time looking for you It's like this, I'll take you nice and slow
Unless you don't wanna know
Then maybe I'll just let you go It takes to get it on
And I'll come round and round, baby So, baby, come round, come round
Come round to my way of loving
So, baby, come round, come round
Come round to my way of loving So, baby, come round, come round
Come round to my way, I said my way
So, baby, come round, come round
Come round So, baby, come round, come round
Come round
