Sleepless

Wave

Do you believe in love at first sight?
Just one glance and you know
Well, I do and I'll tell you what it's like
It's something that can't be describedAnd I'll never let it go
This feeling that feels so right
You're the reason I'm not sleeping, baby
You keep me up all nightI've got no where to hide
From the vision you left behind
Though I try to fight It's gonna be a long nightI lie awake thinking of the time
Before you came into my life
Suddenly you took me by surprise
You opened up my eyesAnd I'll never let it go
This feeling that feels so right
You're the reason I'm not sleeping, baby
You keep me up all nightI've got no where to hide
From the vision you left behind
Though I try to fight
It's gonna be a long nightThe bug upon the wall moving so slow
The more I twist and turn, the more I need you now
And I cannot erase the picture of your face
And I just can't leave it behindAnd I'll never let it go
The magic of this sleepless night
You're the reason I'm not sleeping, baby
You keep me up all nightI've got no where to hide
From the vision you left behind
Though I try to fight
It's gonna be a long nightYou're the reason I'm not sleeping, baby
You keep me up all nightI've got no where to hide
From the vision you left behind
Though I try to fight
It's gonna be a long nightThe magic of this sleepless night
