Elemental

Auracle Music

This race is already run
Get off your horse, get on this trainWelcome to the real world
I said, "Welcome to the real world"
Are we rushin' like the wind?
Naked out and naked in
Welcome to the free world
I said, "Welcome to the mean world"
Are we rushin' like the wind?Put your lovin' arms around
Did you lose your faith in God?
Does your conscience always get you down?
Fall to pieces, rough and tumble
Does your conscience always get you down?These days it's all in the mind
It's Elemental
Don't say you're up when you're down
It's ElementalPut your lovin' arms around
This your new year's resolution
Put your lovin' arms around
Nothing doing resolution
Put your lovin' arms aroundTake another leap in the dark
With a humble heart
Do yourself some good?
What did you become?
Patience, be sure
Baby, babyThese days it's all in the mind
It's Elemental
Don't say you're up when you're down
It's ElementalThese days it's all in the mind
It's Elemental
Don't say you're up when you're down
It's ElementalThese days it's all in the mind
It's Elemental
Don't say you're up when you're down
It's ElementalThese days it's all the mind
It's Elemental
