

Into the Dark

Parkway Drive

There was a time I felt invincible
In the cradle of youth [?] on the world
Until I held on so tight I felt it slipping away
Into the dark I stay, into the dark I stay
[?] soul

Into the dark I stay, into the dark I stay
Until you gave my life meaning

[Chorus]

You are the blood in my heart
You give me something to fight for
You are the wind in my lungs
You are the blood in my heart
You give me something to fight for
You are the wind in my lungs

So I fight for this

(So I fight for this) There was a time I felt untouchable

In the shadow of pride is where the danger dwells
I flew so high my wings burned away
Into the dark I stay, into the dark I stay
[?] left my soul

Into the dark I stay, into the dark I stay

You give me hope for your faith in me
You are the blood in my heart

You give me something to fight for
You are the wind in my lungs
You are the blood in my heart
You give me something to fight for
You are the wind in my lungs

So I fight for this
You are the blood in my heart

You give me something to fight for
You are the wind in my lungs
You are the blood in my heart
You give me something to fight for
You are the wind in my lungs

You give me something to fight for
You give me something to fight for
You give me something to fight for
