

# So Beautiful (Lee Groves mix)

**Darren Hayes**

Whether I'm right or wrong  
There's no phrase that hits  
Like an ocean needs the sand  
Or a dirty old shoe that fits  
And if all the world was perfect  
I would only ever want to see your scars  
You know they can have their universe  
We'll be in the dirt designing stars And darlin' you know  
You make me feel so beautiful  
Nowhere else in the world I wanna be  
You make me feel so beautiful Whether I'm up or down  
There's no crowd to please  
I'm like a faith without a clause to believe in it  
And if all the world was smiling  
I would only ever want to see your frown  
You know they can sail away in sunsets  
We'll be right here stranded on the ground  
Just happy to be found You make me feel so beautiful  
Nowhere else in the world I wanna be  
You make me feel so beautiful I have lost my illusions  
I have drowned in your words  
I have left my confusion to a cynical world  
I am throwing myself at things I don't understand  
Discover enlightenment holding your hand You are  
So beautiful Yeah darlin' you know!  
That you make me feel so beautiful
