

# Get Right

## Maoli

### Verse 1:

Wanna see your eyes, really captured me (Now could we ever be?)  
More than friends, tryna live a fantasy (Why can't we let it be?)  
Tryna be the man I know that you like  
Givin' you that love I know that feels right  
So don't let me down, wanna stick around, just be around

### Chorus:

I'll tell you one time, you're original  
Finest girl me ever seen, but  
If you wanna get right, you let me know  
I'll give you all the lovin' you need  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me

### Verse 2:

Beautiful is you and that's what I see (Now do you want me?)  
I could give you that love and comfort you need (The best you'll receive)  
Let me be the one to give you that home  
Always beside you and never alone  
Just say you want me, 'cause you know you got me

### Chorus:

I'll tell you one time, you're original  
Finest girl me ever seen, but  
If you wanna get right, you let me know  
I'll give you all the lovin' you need  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me  
Baby come and love me, love me, love me

### Rap:

What's love? Little girl you're all I think about  
Everytime you pass me by my heart it have to scream and shout  
Every possible move to get you on the side  
Dreamin' and trustin' you're dreamin' you might (find)

A kind of love that lasts forever

Tell you baby (tell you), wanna love you girl

All my love, all my love

(Woah) â€¦ Love you babe

(Woah) â€¦ Oh I do â€¦ yeah

Chorus:

Iâ€™ll tell you one time, youâ€™re original

Finest girl me ever seen, but

If you wanna get right, you let me know

Iâ€™ll give you all the lovinâ€™ you need

Baby come and love me, love me, love me

Baby come and love me, love me, love me

Baby come and love me, love me, love me

Finest girl me ever seen, but

If you wanna get right, you let me know

Iâ€™ll give you all the lovinâ€™ you need
