

# Does Your Mother Really Know

## Blue System

Baby, you walk, ohh, in my dreams  
Baby, we'll swim against the stream  
Baby, look to the rain, the rain will never lie  
Baby, we get it right next time  
What can I do to change your mind  
Ohh, it's an old, old scene  
The world is calling love  
I feel you try to win  
All I do just for you, my love  
Does your mother really know?  
You're in my dreams  
Does your mother really know?  
Ohh, what it means  
Does your mother really know?  
How much it hurts  
And it's not a flirt  
Does your mother really know?  
We had it all  
Does your mother really know?  
Ohh, when I call  
Does your mother really know?  
You're my first love  
I can't get enough  
We're dancing at the edge of time  
And all the life we leave behind  
Ohh, it's the same old dream  
The world is calling love  
Who's been sleeping in your bed?  
Ohh, baby, why you make me sad?  
Ohh, it's the same old dream  
The world is calling love  
I feel you win this game  
What a fool is my heart to you  
Does your mother really know?  
You're in my dreams  
Does your mother really know?  
Ohh, what it means  
Does your mother really know?  
How much it hurts  
And it's not a flirt  
Does your mother really know?  
We had it all  
Does your mother really know?  
Ohh, when I call  
Does your mother really know?  
You're my first love  
I can't get enough  
Does your mother really know?  
Does your mother really know?  
You're in my dreams  
Does your mother really know?  
Ohh, what it means  
Does your mother really know?  
How much it hurts  
And it's not a flirt  
Does your mother really know?

We had it all  
Does your mother really know?  
Ohh, when I call Does your mother really know?  
You're my first love  
I cant get enough
