Cadence!

The Honor System

Who bakes this mess
Who set this dinner plate?
Pharmacist won't dine on what's prescribed
(slightly nutritious, genetically delicious)
The cadence rings out long and loud
Axis shift the scale's been thrown off weight
Our sweet princess was caught stuffing her face
All gone
The cadence rings out long and loud
You want your meal then you'll dance for it
To the pounding drums of politics
Die in freedom or dine in debt
You want your meal then you'll dance for it
You want your meal then you'll dance for it
To the pounding drums of politics:. Cadence!
