

Lighters

Gloriana

You can't move, can't get right
Alone in the dark in the middle of the night
You're hanging on but just barely
Burn down, faded away, tryna' see the sun
while you're standing in the rain
Your heart's been running on empty So if you feel lost, walking on a lie
Then put 'em up, put a little brighter
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters
We just wanna take it higher, know we need a spark
If you're gonna start a fire
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters Ain't about what you do, no matter where you go
We all see highs, we all see lows
Our lives just mountains and valleys
Illuminate, shine from inside
Give a little love, get it back in time
'Cause you got a light that's amazing So if you feel lost, walking on a lie
Then put 'em up, put a little brighter
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters
We just wanna take it higher, know we need a spark
If you're gonna start a fire
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters Get 'em up, hey, get em up, gon' get em up
Get 'em up, hey, get em up, gon' get em up
Get 'em up, hey, get em up, gon' get em up
Lemme see a light, lemme see your light shining
Lemme see a light So if you feel lost, walking on a lie
Then put 'em up, put a little brighter
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters
We just wanna take it higher, know we need a spark
If you're gonna start a fire
Lemme see a light, lemme see your lighters
Lemme see a light, lemme see your lighters
