Getting Through

Helios

I'm too honest when I'm scared
When I first looked in I was young and cared
These are ways of getting through
I left my trust on the tail of youth
We were so unsure of the things we'd seen
These are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there too
I never learned to ask what's fair
It's just the words we use take us there
These are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there too

I never touch fortune, I never regret
It's just a simple task to touch your depths
These are ways of getting through
These are things I'd do for you
These are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there too
I never touch fortune, I never regret
It's just a simple task to touch your depths
And I'm always too honest when I'm scared
When I first looked in I was young and cared
These are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there too
