# Revolution (feat. First Aid Kit)

## Van William

Lost my valentine
You could never keep my meaning straight
And I won't wait in line
For you to give me any time of day

I want a revolution
You want a short solution
We never could see eye to eye
You wanted retribution
I came to the same conclusion
It's a story as old as time
I heard you cried in the other room

Tried to test the eyes
I could hear a cracking underneath
There's no compromise
If both of us are aching to be free

I want a revolution
You want a short solution
We never could see eye to eye
You wanted retribution
I came to the same conclusion
It's a story as old as time
I heard you cried in the other room

It took a lifetime
for us to see that it's to late
We're a broken stake
And after all of this
We keep ignoring the signs
The waters run dry

I want a revolution
You want a short solution
We never could see eye to eye
You wanted retribution
I came to the same conclusion
It's a story as old as time

I heard you cried in the other room
