# Kill Everything

## Crossbreed

You subconsciously challenge everyone
No one remains
You wanted this to fuck everyone you know
No ones the sameKill
Everyone
That you see
That there is nobody left but me
That's ok
You will never live
Another dayYou did this to you
Did this to you
Did this to youThere's no one awaiting
It's so frustrating
Do I?
Do I? (do I?)
There's no one awaiting
It's so frustrating
Do I?
Do I?You did this to you
Did this to you
Did this to you
You did this to you
Did this to you
Did this to youKill
Everyone
That you see
That there is nobody left but me
That's ok
You will never live
Another dayThere's no one awaiting
It's so frustrating
Do I?
Do I? (do I?)
There's no one awaiting
It's so frustrating
Do I?
Do I?There's no one awaiting
There's no one awaiting
There's no one awaiting
