

This Girl

Kylie Minogue

Take me as I am
Though I'm good at pretending
I tire easily
And hurry to the ending There's more than what you see
But not the way you see it
I hope you follow me
And you get the meaning Here is where I stand
Here is who I am And I'm not interested in fitting in
I only want to be, to be this girl
I'm not interested in giving in
I only want to be this girl Take me as you will
Under no illusions
I offer myself whole
I give into you And I offer you the sky
The sun and moon and seas
But you need to know that I'm
Not more or less than me Here is where I stand
Here is who I am And I'm not interested in fitting in
I only want to be, to be this girl
I'm not interested in giving in
I only want to be this girl I'm not interested in fitting in
I only want to be, to be this girl
I'm not interested in giving in
I only want to be this girl This girl
