

# These Ravines

## Ages and Ages

These ravines were here before us  
So make your case from on your patio  
We'll be thorough in ignoring it all And it makes no difference what you say  
'Cause we never listen and we're sure to be  
Safe as always from your patio calls And it's ours to explore how we want to explore  
There's a reason we're out here  
But you have no use  
So go back to wherever you came from before  
And remember your manners 'cause someday we're sure to be Ashes, ashes, everyone and whatever's left is  
better off in the world without us,  
here to squander it all So it makes no difference what you say to us  
We don't even take you serious  
Safe as always from your patio calls And it's ours to relate how we want to relate  
There's a reason we're in it  
But you have no use  
So go back to whatever  
You were doing before you decided to speak  
And remember your manners or we'll overshadow you all
