Get On The Boat

Prince

Look outside your window, tell me now what you see
Comin' up the mountain for a new philosophy
Every single color, every race and ever creed
Lookin' for the truth y'all that's gonna set somebody free
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
All across the nation, people doin' what they can
To avoid the tribulation that will be great throughout the land
Everything in darkness must come out into the light
When we love each other, that's the only way that's gonna be right
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Good God, say it again, bridge, we were meant to live together
Underneath the sun, I can't think of nothing better
Don't you wanna come? Get on the boat
Never mind what time it is, the party's just begun
No te alejes de este momento de inspiracion
You can let your hair down, let the music move your feet
Panamama bring the drama, dancin' to the beat, maceo
What's the harm in listenin' to the hopeful words we say?
If it moves your heart, you know you better get in without delay
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Dance to the beat, Ray, Ray, Ray, lead line, horns, hit me now
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
We were meant to live together underneath the sun
I can't think of nothing better, don't you wanna come?
Get on the boat, ooh yeah
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more

Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Get on the boat, get on the boat, people
Get on the boat now, we got room for a hundred more
Good Lord, lead line, lead line
Can't stand it, keep it going, keep it going
