Conor

The Feeling

You found a way to change the world
A simple gift for every boy and girl
Always a piece for everyone
You showed them all that giving can be fun
Giving can be funConnor, you've got the life I want
Connor, I got it all so wrong
You'll never know
ConnorYou've got the life I want
You've got the life I want
You've got the life I want
ConnorThose poisoned pills, we passed around
They made us heavy, pulled us to the ground
But you were built from beams of sun
Naive and unaffected by a world that's come undone
Oh, what can be done?Connor, you've got the life I want
Connor, I got it all so wrong
You'll never know
ConnorYou've got the life I want
You've got the life I want
You've got the life I want
ConnorConnor, you've got the life I want
Connor, I got everything wrong
You'll never know
ConnorYou've got the life I want
You've got the life I want
You've got the life I want
Connor
