

# Conor

## The Feeling

You found a way to change the world  
A simple gift for every boy and girl  
Always a piece for everyone  
You showed them all that giving can be fun  
Giving can be fun Connor, you've got the life I want  
Connor, I got it all so wrong  
You'll never know  
Connor You've got the life I want  
You've got the life I want  
You've got the life I want  
Connor Those poisoned pills, we passed around  
They made us heavy, pulled us to the ground  
But you were built from beams of sun  
Naive and unaffected by a world that's come undone  
Oh, what can be done? Connor, you've got the life I want  
Connor, I got it all so wrong  
You'll never know  
Connor You've got the life I want  
You've got the life I want  
You've got the life I want  
Connor Connor, you've got the life I want  
Connor, I got everything wrong  
You'll never know  
Connor You've got the life I want  
You've got the life I want  
You've got the life I want  
Connor
