The Rain

Lenny Ibizarre

A gentle rain has fallen
In my life and brought me to my knees
I'm crawlin' to .... land and endurable disease

All the pain I'm livin' you all behind
I think I can't ...
You can't hold back the rain
You can't hold back the rain

A gentle voice is callin'
A sound so structures like a summers pries
I'm fallin'
Take my hand and bring this paint to ease

All the pain I'm livin' you all behind
I think I can't ...
You can't hold back the rain
You can't hold back the rain

I guiding light is stalling
To confront me across these stormy seas
Recallin'
That you can't see the forest for the trees

All the pain I'm livin' you all behind
I think I can't ...
You can't hold back the rain
You can't hold back the rain
