

On My Way Back Home

The Clarks

On my way back home
A chance I thought of,
All my favorite songs
and where I'd gone wrong.
The only words that I could think of
I'm pissing my life away in the form of song
On my way back home.
Every step,
a victory it was.
I was cheating death.

and just in time I would
My memory would start to wander off
and come to me
the remembrance of on my way back home.
I came in this way.
in here now I'll stay
if the unknown will have to wait one more day
'cause often times then it comes out wrong
But luckily, I got a mind to know.
On my way back home.
